

20th UCC Safety Period Unofficially Reached at Y-12 Plant-- But Don't Become Complacent, Spring Accident Trend Cited

Murray Urges Lowering Of Frequency Rates

Safety-minded Y-12ers again have accumulated enough man-hours of plant operations without a disabling injury to establish the 20th Union Carbide Safety Period—passing the 1,500,000-hour mark on Wednesday, May 1. The accident-free period, however, still is

unofficial as a waiting period of 20 days must elapse to determine if there are any pending injury cases that might become disabling.

This was the second accident-free period of more than 1,500,000 hours of plant operations established so far this year. However, a word of warning against complacency has been given by Y-12 Plant Superintendent John P. Murray in a message to super-

visors throughout the plant, in which he said:

"So far this year, Y-12 is enjoying an outstanding period free from disabling injuries. However, we cannot afford to become complacent. Safety is not a part-time job but a vital part in our responsibility on a full-time basis. We must redouble our efforts to reduce the present frequency rates."

'57 Mark Outstanding, Should Be Continued

In his message to supervisors Superintendent Murray pointed out that statistics of the National Safety Record and the Y-12 Plant's own records reveal a trend for increase in injuries with the approach of summer, usually reaching a peak in May or June each year. He called attention to the month of May, 1956, when an accident took the lives of two employees and seriously injured another. There were five disabling injuries in Y-12 that month—and the same number in the following month of June.

"Everything possible should be done to prevent this from happening again," Superintendent Murray stated.

Three Injuries This Year

So far in 1957 there have been only three disabling injuries in the Y-12 Plant Area—two in January and one in March. The frequency rate—number of lost time accidents per 1,000,000 hours of plant operations—through March was 1.05. The severity rate—number of days lost per 1,000,000 hours of operations—is 41.

As pointed out by Superintendent Murray, that is a fine start for 1957—and it will be to the credit of every Union Carbide Nuclear Company employee in the Y-12 Plant Area if the slate can be kept clean for an indefinite period. The objective, of course, is twofold—to protect the well-being and good health of every Y-12er as which in itself will create more favorable figures in the field of safety.

Statistics and a chart issued by the Safety Department show that in 1955 and 1956 there were 27 disabling injuries each year with the 1955 frequency rate being 2.17 and the 1956 rate jumping to 2.27. Those two fatalities in 1956 sent the severity rate soaring to 1,467 in 1956 against only 172 the previous year.

Record Could Be Impressive

Coming back to the present, the Y-12 Plant figures—they may be dull but they are revealing—indicate that if the present trend toward safety is maintained the record for the year will be most impressive.

In his message to supervisors Superintendent Murray also points out that a check of disabling accidents in the Y-12 Plant shows that unsafe acts are causing the majority of disabling injuries. All supervisors are urged to evaluate their jobs from a safety standpoint and do everything possible to prevent unsafe acts and eliminate unsafe conditions.

20th Period Started March 13

In the previous UCC Safety Period set this year in Y-12—the 19th—a total of 1,844,567 hours of plant operations were performed between January 13 and March 11. The present 20th period was started on March 13.

With such a good start—let's keep the string of accident-free days unbroken and those safety

THE BULLETIN

A NEWSPAPER BY AND FOR Y-12 EMPLOYEES OF UNION CARBIDE NUCLEAR COMPANY
A DIVISION OF UNION CARBIDE AND CARBON CORPORATION

Vol. 11—No. 19

OAK RIDGE, TENNESSEE

Wednesday, May 8, 1957

Two Former Y-12ers, Now Retired, Among Eight Ex-UCNC Employees In Oak Ridge To Receive First UCC Pension Plan Benefit Checks

BELITHA HENLEY, LEFT, AND JOHN H. TATE, CENTER, are shown above receiving their first Union Carbide Corporation Pension Plan benefit checks from Assistant Y-12 Plant Superintendent George A. Strasser.

J. Tate and B. Henley Aided by Revised Rules

Two former Y-12ers who retired on February 1, 1957, are among eight former Union Carbide Nuclear Company employees in Oak Ridge to receive benefits under the Union Carbide Corporation Pension Plan and its recent revisions. The former Y-12ers are John H. Tate, who worked in the Laundry Department; and Belitha Henley, of the Janitors Department.

Checks Delivered By Strasser
The first benefit checks were handed to the former Y-12ers last Wednesday, April 30, by Y-12 Assistant Plant Superintendent George A. Strasser. The benefit checks will be mailed directly to the two men at their homes in the future.

The other six former UCNC employees receiving the UCC Pension Plan benefits include four at Oak Ridge National Laboratory and two at the K-25 Plant.

Under provisions of the revised UCC Pension Plan, the retired employees are eligible for benefits on retirement if they have had 10 years of Company Service. Under the previous plan, 15 years of Company Service were required before a retired employee could receive the benefits.

Social Security Not Subtracted
Another provision of the revised UCC Pension Plan does not subtract social security from the pension benefits, as previously was done before the revision, so that the retired UCNC employees receive both social security and pension benefits.

When Tate retired he had almost 13 years of Company Service, as he was hired as a Y-12er on February 10, 1944. Henley was employed on May 6, 1946, so had several months more than the required 10 years to become eligible for the UCC Pension Plan benefits.

Tate is now living at his home, 310 E St., Lenoir City. Henley is active on his farm between Oliver Springs and Harriman.

Throng Seen At Spring Dance Friday, May 17

Judging from advance interest in the gala event, a record crowd of Y-12 merrymakers is expected at the 1957 edition of the annual Y-12 Spring Dance to be unfolded Friday night, May 17—that's next week—at the Oak Terrace ballroom. With three door prizes to be presented, a new orchestra and entertainers to be seen and heard and the first opportunity of the Spring to really get together with friends throughout the plant, it's no wonder that the advance sale of tickets is far beyond the same mark at the corresponding time last year.

Where To Get Tickets
Speaking of tickets, they are on sale at several different buildings all over the Y-12 Plant Area. The sellers and their building addresses are:

- Mavis Koons, Milton Dickens and Joanna Rowan, Bldg. 9212.
- Carl Frazier, Marvin Shanks and Mabel Tyer, Bldg. 9201-4.
- Byron North and J. P. Smith, Bldg. 9723-11A.
- Fran Willie, Bldg. 9739.
- Charles Gillihan, Bldg. 9706-1A.
- Virginia Boswell, Bldg. 9201-2.
- C. M. West, Bldg. 9704-2.
- Jean Granstaff, Bldg. 9764.
- T. E. Monsey, Bldg. 9204-2.
- M. L. Sweet, Bldg. 9201-5.
- Evelyn Tucker, Cafeteria.
- Recreation Department, Room 226, Bldg. 9704-2.

The new orchestra making its debut for entertainment of Y-12ers is the Bill Lawson band of music
Continued on Page 4

PHYSIOLOGISTS BUSY

If a physiologist in medicine wanted to read all the reports on the subject printed in one year he would require two years and 70 days, assuming the reader stayed on the job eight hours every day of the year, reading a page every two minutes.

Clean-Up Week Observance In Y-12 Plant Declared Fine After Reports, Inspections

From studies of written reports from divisional and departmental safety leaders and visual inspection of interior and exterior of buildings around the Y-12 Plant last week, it was a consensus of opinion that the annual observance of Spring Clean-Up Week April 21-27 was a complete success.

As an indication of the thoroughness of the clean-up of waste material and rubbish, the Salvage Department of the Maintenance Division hauled 232,625 pounds of trash to the burning grounds during the week and 24 other trucks loaded with rubbish also were carried away by individual groups. Before and during Clean-Up Week the Salvage Department hauled 120 loads in connection with the observance.

The buildings inspections found all structures "looking good" and fire, safety and security coordinators throughout the plant declare that all Y-12ers "did a good job" in their objective of ridding the plant of all fire and accident hazards.

More Varied Items Offered At UCNC Sales Of Surplus

With Management Services, Inc., ending its surplus property sales, many of their excess items have been turned over to the Property Sales Department of Union Carbide Nuclear Company and will be offered to the public at sales twice monthly during May, June and July. To be sold at these surplus property sales are such items as small electric stoves and refrigerators, hot water heaters and other similar articles in addition to the usual excess material offered to the public at the sales.

The UCNC surplus property sales will be held on May 11 (Saturday of this week), and 25, June 8 and 22 and July 13 and 27. The sales are held from 8 a.m. to 4 p.m. at the UCNC warehouse on River Road near the Elza Gate.

Credit Union Statements Now Available At Office

Quarterly statements by the Y-12 Employees Credit Union for the three months ending April 30 now are available to members of the organization at the Credit Union office, North Portal. Members are asked to pick them up as soon as possible and those not obtained will be mailed to the homes of the members.

The statements will include the status of both loan and share accounts of members through the month of April.

TASTY DISHES OFFERED ON SPECIAL LUNCHES

Two tasty dishes have been announced as entrees on the 50-cent Special Lunches to be served at the Y-12 Cafeteria tomorrow, Thursday, May 9, and next Tuesday, May 14. The main dish tomorrow will be chef's holiday while on next Tuesday Boston baked beans will be served. Each Special Lunch also includes one vegetable, choice of salad or dessert and rolls and butter.

Telephone 7751

To start off this week—The Bulletin will use this space to pass on a request made by Mrs. Mary Oody, widow of the late Carl Oody, a rigger foreman in the Buildings and Grounds Department of the Maintenance Division before his death on April 22. Mrs. Oody asked The Bulletin to extend her sincere thanks and that of other survivors of the former Y-12er to all of Carl Oody's many friends in the Y-12 Plant for their many kindnesses extended him and the family during and after the last illness and death of their husband, father and brother.

It is a privilege for The Bulletin to perform this service for Mrs. Oody.

Now to proceed with the rest of the Strictly Confidential news around the plant.

FINANCE AND MATERIALS

Plant Records extends hearty get well wishes to **Lucille Hatmaker**, who has been ill in Oak Ridge Hospital.

Parker Morgan, Tabulating Services, spent the past week end with relatives in Cleveland, Tenn.

Carol Puckett went on a hike in the Smokies and **Kate Penland** and her sister, Elaine, visited their parents in Highlands, N. C., over the same period. **Virginia Swanner** is planning a big vacation in Florida next week.

Beatrice Cameron's oil "Soft Silence" is among the paintings in the Oak Ridge Community Art Center's new program of rentals of original works. The SS Control Department is proud of that—and goes on to welcome **W. H. Hoose** to its staff.

MAINTENANCE

Maintenance Planning and many other friends of **Helen Sisson** and her husband extend condolences to them over the death of an uncle, the late Judge S. H. Justice, of Wartburg, who died April 29 at Oak Ridge Hospital. **Clyde Brewer** and his wife, Jean, are vacationing for a week with a few days at Aiken, S. C., and the rest of the time just loafing around their Clinton home. The welcome mat was rolled out last week for **Fred Stout**, who returned to the department.

Process Maintenance is glad to report that with the advent of softball their own Rebels of the Y-12 Softball League opened things up with a win—showing that there are some other interests besides fishing. **R. C. Pruden** and his wife visited their grandchildren in Memphis over the past week end. Vacationers include **E. Edwards**, house painting; and **A. D. Johnson**, spending some time in Nashville. Sympathy is extended **L. W. Nichols**, whose mother died recently in Livonia, Ga.

Get well wishes go to **J. C. Knisley**, off ill; and **C. P. Riner** is welcomed back after being away sick for some time. **V. T. Callaway** is warmly welcomed to the department. **Charley Greene** vows he will have some fishing equipment for sale soon if they don't start biting. Maybe he can get a customer in **C. L. Hays**, who reported 12 nice bass at Cedar Hill in his long break. A real king-size vacation of three weeks is being taken by **G. E. Berny**, who is going to spend the entire time touring Florida.

D. C. Hunt, Research Services, has "joined up" with the "Do It Yourself" clan—he spent his recent vacation fixing up his newly purchased home in Oak Ridge.

F. M. Barnes competed in Army rifle matches at Ft. Benning, Ga., last week. **E. B. Galloway** sure enjoyed his vacation on the lake bank at Cedar Hill and folks down thataway hope **Bill Humphreys** will have as enjoyable time on his fishing and loafing schedule.

V. W. Reece proudly welcomed new daughter, Susan Elaine, born April 28—mother and daughter doing fine, thank you. **Clarence Armstrong** was real busy 'tother Saturday—bought a new automobile and then got married, now he being congratulated. It is hoped that the several folks on the ailing list will be up and around soon, to wit, **L. R. Bledsoe**, **W. V. Yaden**, **L. M. Thompson**, **J. W. Howard**, **J. F. Davis** and **R. L. Oswald**.

Roy Lanter, Electrical Maintenance, has reason to be proud

these days—his son, Billy Don Lanter, last week was awarded the Third Army gold medal for being the outstanding senior cadet at the University of Tennessee, where Billy is a lieutenant colonel in the ROTC and was a valuable member of the football squad of 1956.

TECHNICAL

Harvey Kite, Development Operations, and Mrs. K. are flying another little kite—a baby girl born April 29. Another **Harvey—Saylor**, that is—who resigned May 1 after a long and fruitful Y-12 career, was feted at a dinner by gents of the department last Thursday night with his departure being duly deplored.

Nadine Graham, A Shift of Production Assay, is vacationing at home in Loudon. **Janice Childress** is in Florida (lucky gal).

T. D. Martin went on a trout fishing safari in North Carolina over the week end. **Ozell Pass**, of D Shift, same department, vacationed at home in Clinton. **Charlene Asbury** and her husband were recent visitors to Middlesboro, Ky., and **Irene Ellison** dropped down to Chattanooga for a few days. **June Stevens** is welcomed back after a sick spell.

Chloe Chitwood and **Thelma Cole**, Production Analysis, are vacationing for a week at historic Sea Island, Ga., off Brunswick. Get well wishes to ailing **Tom Barton** and also to **C. B. Burnette**, who absorbed a little too much of Old Sol's rays recently.

Special Testing is real happy with **Ben Rutherford**, Proud Pop of a seven-pound, one-ounce baby girl, Myra Lynn. Get well wishes to **Addie Lynch**, in Oak Ridge Hospital.

Special Projects sends wishes for a rapid recovery to the mother of **Harold Williams**, suffering from multiple fractures of ribs, spine and elbow sustained in a recent automobile accident.

Louise Scogins, Industrial Engineering, is proving that fishing is not the sole prerogative of the masculine gender—she spent a recent week angling in various and sundry lakes and streams in and around Kingston.

From Mechanical Engineering it is learned that **Bill Hood's** mother recently was hospitalized—get well wishes go her way.

The **Leo Browns**, **Tom Norrises** and the **E. J. Asburys** all took advantage of a recent fine week end to drive to the Smokies. More about **Tom Norris**—he has moved to Oliver Springs. **Tom Keane** has made news again—just bought a spanking new automobile—makes a fine baby buggy for Junior. 'Tis said folks always talk about the weather but never do anything about it—well, **Steve Koczan** has installed a new air conditioner in his home for a sorta "keep cool with Koczan" program.

Bill Rice, Civil Architectural, underwent surgery at Oak Ridge Hospital last week and best wishes for a rapid recovery are sent his way.

MECHANICAL OPERATIONS

F. Mechanical Operations sends get well wishes to **C. H. Edwards**, in Rockwood Hospital, and to the father of **R. V. Harrell**, in LaFollette Hospital. Sympathy is extended **H. Mitchell**, whose aunt died recently. **J. C. Cate** is a Rockwood vacationer. **Ken Nuchols** is a newly welcomed

Mother's Day Idea Conceived 50 Years Ago

It was back on May 9, 1907, that Miss Anna Jarvis, of Philadelphia, Pa., remembering the death of beloved mother just a year before, conceived the thought of a day dedicated to all mothers. She began interesting individuals and organizations in picking the second Sunday in May as Mother's Day, and the initial observance was held in her home city on May 10, 1908.

Becoming the missionary of the idea, Miss Jarvis wrote thousands

of letters to encourage a widespread observance of Mother's Day. On May 10, 1913, Congress made Mother's Day a national holiday "dedicated to the memory of the best mother in the world—your mother."

Now a traditional observance in every state in the nation, Mother's Day likewise is observed in many foreign lands. Red carnations are generally worn to honor mothers to be visited, written to or to accompany gifts; while white carnations are worn in memory of mothers who have died.

Rides Wanted, Offered

Two car-pool members wanted from West Village, Oak Ridge, to Central Portal, straight day. M. Tobias, plant phone 7-8537, home phone 5-4860, Oak Ridge.

Riders wanted from 3800 block Broadway, Knoxville, to Central Portal, H Shift. H. T. Pless, plant phone 7073, home phone 5-0838, Knoxville.

Car-pool members wanted from Cedar Lane, Fountain City, or Norwood to Central Portal, straight day. E. H. Bell, plant phone 7648, home phone 6-5944, Knoxville.

Ride wanted from Tekoa Road, Knoxville, to Bear Creek Portal, straight day. C. W. Shook, plant phone 7417, home phone 8-7891, Knoxville.

Ride wanted or will join car pool from 144 Latimer Road, Oak Ridge, to West Portal, straight day. G. H. Coleman, plant phone 7970, home phone 2-2539, Oak Ridge.

Talk On 'Project Vanguard' Will Be Heard By AIEE

An interesting talk on the Martin Company's Project Vanguard, the program to produce a rocket that will propel the first man-made earth satellite, will be heard by the Oak Ridge Section of the American Institute of Electrical Engineers on Thursday, May 23. The occasion will be a dinner at the Social Hall of the First Methodist Church.

The speaker will be Russell C. Walters, assistant project engineer for the Martin Company on Project Vanguard.

Get well wishes are extended the following Y-12 employees who were patients last week in the Oak Ridge Hospital:

Woodrow W. Chase, Property Sales; Lloyd M. Thompson, Research Services; Addie D. Lynch, Special Testing; Eugene L. Goodman, Development Operations; Richard L. Boxley, Buildings and Grounds; James E. Livingston, General Machine Shop; Mack Haynes and John H. Siler, Janitors.

Playhouse To Offer Final Show This Week

'Detective Story' Set For Stage May 9, 10, 11

"Detective Story," a sort of slice-of-life drama written by Sidney Kingsley and presented for the first time in New York in 1949, will be presented by the Oak Ridge Community Playhouse on Thursday, Friday and Saturday nights of this week, May 9, 10 and 11. The play will be presented at the Jefferson Junior High School auditorium with curtain time at 8:20 o'clock. It is the last production of the regular season.

The play covers action of several hours at a New York City precinct police station. A major theme of the dangers of extreme righteousness runs throughout the play, but the mass of realistic detail almost overshadows the theme as the story of a detective's experiences and life in the station unfolds.

Directed by Paul Ebert, "Detective Story" requires a cast of 24 actors, the largest of any play staged by the local organization. Among the performers will be Sheldon Dady, Pat Zerby, Sam Thompson, Earl Hutchison, Jim Muir, Owen Merrill, Clyde Claiborne, Leighton Fuller, Lloyd Bryson, Art Dworkin, Nate Bossin, Murray Hanig, Milton Lloyd, Marlene Ritter, Lee Pearson, Dewey Robinson, Bud Rubin, John McBride, Gray Cameron, Sam McClure, Barbara Manneschildt, Bob Minturn, Lois Grant and Irvin Spievak.

Herman Intemann Appointed President Of Electromet

Hermann K. Intemann has been appointed President of Electro Metallurgical Company, Division of Union Carbide Corporation, according to Morse G. Dial, president of the Corporation.

Intemann joined Union Carbide in 1930 as a laboratory technician for the Halowax Corporation, in Bloomfield, N. J. He was transferred to New York in 1940 as Sales Manager and in 1944 moved to the Bakelite Company where he became Vice-President and General Sales Manager in 1953. In 1956, he was made Executive Vice President of Electro Metallurgical Company. He was born in Brooklyn, N. Y., and graduated from Stevens Institute of Technology in 1930 as a Mechanical Engineer.

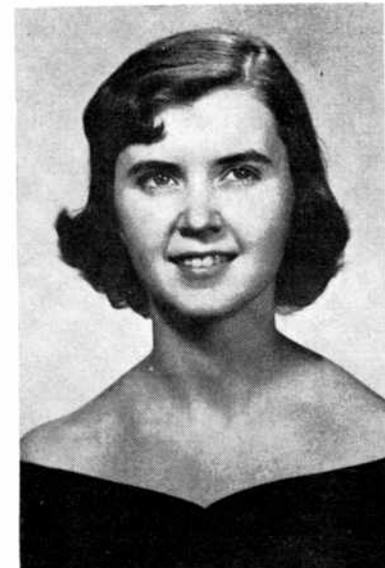

10 Years Service

Congratulations to the following Y-12ers who will complete 10 years of Company Service within the next few days:

Winfred C. Collins, General Machine Shop, May 9.

William S. Miller, Electrical Maintenance, May 9.

Roland H. Armstrong, Janitors, May 9.

Miss Judy Alspaugh

Daughter Of Y-12er Again Is Winner Of Award By NSA

For the second straight year a daughter of a Y-12er has won the annual award presented by the Oak Ridge Chapter of the National Secretaries Association for excellence in shorthand. The 1957 winner is Miss Judy Alspaugh, daughter of U. L. Alspaugh, of Research Services. The 1956 winner was Miss Virginia Ann Neal, whose father is Harold H. Neal, of the Guard Department.

In tests given by Mrs. J. C. Horton, of the Oak Ridge High School commercial department, Miss Alspaugh was 98 per cent accurate in dictation given at a rate of 120 words per minute. She also won honorable mention in typing with a speed of 73 words per minute, just one word per minute behind the winner, Miss Winifred Trent.

Judy Alspaugh is a senior at Oak Ridge High School and a member of the National Honor Society. She plans to continue her commercial studies at Valparaiso University, Valparaiso, Ind.

For winning the shorthand contest, Miss Alspaugh was awarded a Hutchison Secretarial Handbook by the NSA, as was Miss Trent.

In the 1956 contest, Miss Neal scored 99 per cent in her shorthand test and later was awarded a scholarship by the NSA. She now is attending Berea College, Berea, Ky.

Former Y-12er Wins Award For Paper By Accountants

Phil Apslund, former head of the Materials Department who was transferred to the Union Carbide Corporation General Accounting Department last November, has won a belated honor from the Knoxville-Oak Ridge Chapter of the National Association of Cost Accountants, of which he was immediate past president when he left for New York for his UCC post.

Before Apslund's departure, the local organization of the NACA had conducted a contest for members in its district for written articles on technical accounting. The former Y-12 man's paper was adjudged best of the five entries and so last week the award of \$50 was sent to him in New York.

Next Y-12 Golf Meet Set May 25

Deane Hill Is Site; Prize List Extended

The second golf tournament of the season for Y-12 players will be held on Saturday, May 25, at the Deane Hill Country Club in Knox County with an attractive extended prize list offered to lure more entries into the event. Tee off time will be from 7 a.m. to 9 a.m. and green fee will be \$3 for non-members of the Deane Hill club.

Committee Extends List

The revision in the division of prizes was decided at a meeting of the Y-12 Golf Tournament Committee last Thursday morning, May 2, in the Recreation Department. The committee is composed of Arnold Tiller, Ed Ellis, R. P. Wallace, J. C. Bowles and J. P. Smith.

The prize distribution system for the Deane Hill tournament will provide for awards to the first four scratch and handicap scorers in each of the three divisions of golfers in the event. In addition there will be prizes for the most 4s in the First Division, most 5s in the Second Division and the most 6s in the Third Division.

Hole-In-One Eliminated

There will be no hole-in-one competition in the May 25 tournament.

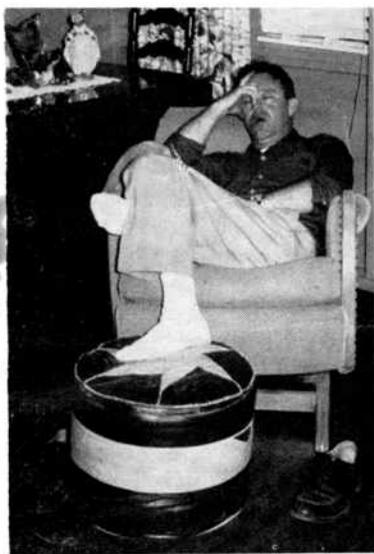

Division play will be as in the first tournament of the season at Oak Ridge with the First Division containing golfers with handicaps up to 12, the Second including those with handicaps from 13 through 23 strokes and the Third for golfers handicapped from 23 to 36 strokes.

Beckett And Sexton Claim Shoe Crown

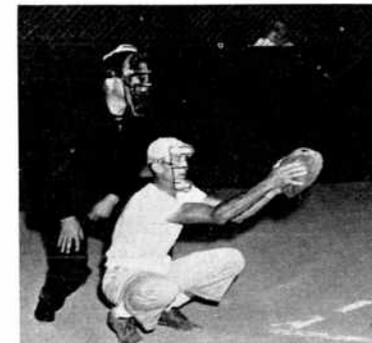

Charley Beckett and Sam Sexton, Research Services Department men in Bldg. 9204-2, are claiming the horseshoe pitching championship of the Maintenance Division and will accept challenges from all comers throughout the plant for the Y-12 title. Beckett and Sexton laid claim to their title after defeating Len Hart and E. R. McConkey, also Research Services employees in Bldg. 9206 in a recent engagement.

Beckett is acting as manager of the championship claimants and any aspirants to the crown are asked to communicate with him at plant phone 7-8569 to present their challenge. Prompt acceptance is promised.

Careful with a car full.

HIGHLY RECOMMENDED relaxation for after-work hours is demonstrated in this snapshot of George H. Caylor, Beta Two, which pals figured would be worth publishing. It really reveals perfect comfort being enjoyed by the Y-12er "after a hard day's work," the quotes being by aforesaid pals.

THE LITTLEST REBEL OF THEM ALL, YOUNG JIMMY FRITTS, mascot his team to a win in the opening game of the Y-12 Plant Softball League last week after pitching the first ball, above. He is the nephew of Cecil Packs, of the Rebel team. After the regular Rebel hurler took over on the mound, W. T. Headrick, of the Screwballs, swung mightily at the first ball pitched but "pooped it up" in front of the plate and just under the upper right of the picture. The Rebel catcher is J. B. Bowman and the umpire is Milton Dickens, also a Y-12er.

Hitters Humble Hurlers In Opening Engagements In Plant Softball Loop

Wildcats And Reactors Tied For League Lead As High Scores Are Features Of Initial Week

The Y-12 Plant Softball League got underway with a bang—a real bang-bang, as the scores reveal—last week and when the dust and cracked bats at Pinewood Park finally stopped falling the Wildcats and Reactors were tied for first place with a pair of victories and no defeats.

In the opening games it was definitely a hitter's league with the hurlers being humbled and humiliated in several engagements. For instance, right off the bat on opening night, Monday, April 29, the Rebels routed the Screwballs by 20 to 0 and then came the Wildcats to wallop the C Hawks by 30 to 5. In other games the Wildcats blanked the Rebels by 9 to 0, the Reactors romped on the same Rebels by 12 to 3 and the B Bombers blasted the Early Birds by 12 to 7.

Ed Sise Hurls Two-Hitter

Ed Sise threw a two-hitter for the Rebels in the opener against the Screwballs for that 20 to 0 win, Ferris getting both hits for the losers. J. D. Collins led the winners with the willow with three doubles and a single in five trips to the platter. Bowman homered for the Rebels.

The Wildcats parleyed 23 hits and eight C Hawk bobbles into their romp. Earl Thomas paced the Cats with four hits, including a pair of homers, as the victors got off with 11 runs in the first inning. Hatmaker also bagged a homer and two other bingles. J. C. Bryan banged a pair of bingles for the losers and also scored twice.

The veteran Ed Sise, after his fine opening game, was badly battered by the Reactors in that 12-to-3 defeat suffered by the Rebels. Sise allowed 14 hits, including two homers by Rowe and one by Bill Wilburn. The Rebels tallied twice off Chandler in the first inning, but the Reactors came back with three in their half and added six more in the second to make it lopsided from there on. Ernie Collins homered for the Rebels.

Monsey Handcuffs Rebels

The Wildcats also treated the Rebels roughly in their 9-to-0 win, whacking J. D. Collins, starting pitcher; and then Sise, for 13 hits. Hickey and Terry rapped round-trippers for the winners while Monsey handcuffed the Rebels.

In the only day game of the week, the B Bombers found the target in a big fourth inning with seven runs to clinch the decision over the Early Birds. Peters and Breazeale homered for the Bombers and Beeler had three for four to lead the attack. Compton was best hitter for the Birds with two for three.

The league had one casualty in the first week, as the C Hawks were forced to withdraw because of lack of players. For the remainder of the first half of the season scheduled opponents of the Hawks will be awarded a forfeit decision. Hawk players will be distributed among other teams in the circuit.

Scores by innings and league standing follows:

LEAGUE STANDING			
Team	W	L	
Wildcats	2	0	
Reactors	2	0	
B Bombers	1	0	
Rebels	1	2	
Screwballs	1	2	
Early Birds	0	1	
C Hawks	0	2	
Cubs	0	0	
D Shift	0	0

Bumpers Bounce To Classic League Crown By Beating Rippers, Playboys In Rolloff

The Bumpers bounced to the seasonal championship of the Classic League of Y-12 keglers last Thursday night in a rolloff at the Oak Terrace Alleys to defeat the Rippers and Playboys. In handicap series scores on which the decision was based the Bumpers rolled 2864 to 2788 for the Rippers with the Playboys being just two pins back at 2786.

The Bumpers won top honors in the third and final round of play in the league. The Rippers had won the first round and the Playboys the second.

Jay Holtzknecht, of the Rippers, took individual scoring honors in the rolloff games with a 221 scratch game and 246 scratch series. In their march to the crown the Bumpers had an 827 scratch game and 2447 scratch series.

Broken Nochs Hold Archery Loop Lead

The Broken Nochs held the lead in scratch firing in the Y-12 Archery League as the modern Robin Hoods completed the opening rounds of bowing to establish handicap play. Beginning this week scores will be posted on both scratch and handicap basis.

Team	Pts.	Won
Broken Nochs	11	
Split Stumps	9	
Apaches	5	
Long Bows	4	
Quivers	2	

"Doing nothing is the most tiresome job in the world, because you can't quit and rest!"

A visitor to an asylum saw a man sitting at a desk writing a letter. Wanting to be friendly, he asked:

"To whom are you writing?"
 "To myself," was the reply.
 "Well, what are you telling yourself?" the visitor asked.
 "How the heck would I know," the annoyed inmate asked, "I won't get the letter until tomorrow."

SAUGER PIKE ARE GROWING big and boisterous this season with a good example being this beauty and his captor, Bob George, Electrical Engineering. The Y-12er caught his fish from Norris Lake with and L. & S. Shiner.

Thomson-Dehoney Hold Ridge Lead

The Thomson-Dehoney team held onto the lead in the Y-12 Plant Golf League for Oak Ridge last week by taking four points from Peterson and Brown, but were being threatened by Bartholomew and Smith, who downed Boyd and Oliphant for five points. Orrison and Harris hung a six-point whitewash win onto McLendon and Underwood while Spears and Cabe were treating Gilcrease and Kahley in a similar manner. Five-point wins were posted by Emlet and Hines over Peckman and Holtzknecht and Stroud and Tiller over Pletz and Roberts. Ratjen-Snyder beat Mitchel-Tibbatts by four.

I. G. Spears shot the best scratch round of the day with a 38, cut to 33 with handicap. Other low scores were C. E. Harris 39-33 and Karl Kahley 43-33.

League standing follows:

Team	W	L
Thomson-Dehoney	10	2
Bartholomew-Smith	9 1/2	2 1/2
Orrison-Harris	9	3
Spears-Cabe	9	3
Emlet-Hines	8	4
Stroud-Tiller	8	4
Mitchel-Tibbatts	7	5
Boyd-Oliphant	6	6
Ratjen-Snyder	5 1/2	6 1/2
Peterson-Brown	5	7
McLendon-Underwood	3	9
Pletz-Roberts	2	10
Holtzknecht-Peckman	1	11
Gilcrease-Kahley	1	11

Plans For Tennis Expected Soon

Organization of competition in tennis for Y-12ers probably will be announced next week by the Y-12 Recreation Department, as considerable interest has been shown in the sport by both men and women netters in the plant. Ladder play is contemplated for both men and women in singles or doubles, depending on the number of available players.

All Y-12ers interested in playing tennis this summer are urged to communicate at once with the Recreation Department, Bldg. 9704-2, Room 226, plant phone 7751; Frank Ballenger, plant phone 7308; or Bill Hackett, plant phone 7-8641.

TWO BOWLING TEAMS PICTURES TRANSPOSED

That ol' debbil "pictures mixed up" hit The Bulletin sports page last week. In the layout of two bowling teams the descriptive lines under the photographs transposed the Hot Shots of the Evening Shift League, and the Cubs, of the Classic League. However, the names of the bowlers on each team were correct.

So sorry—please. Shots. Early Birds, Helms, Murph and Hickman, Rhea. The Reactors won a forfeit from the Screwballs and the Screwballs took a forfeit from the C Hawks.

Camera Club Salon Slated For May 17

Photos And Slides Will Be Exhibited

The Carbide Camera Club will hold its annual salon meeting at 8 o'clock Friday night, May 17, in the Coral Room of the Ridge Recreation Hall. This is the big meeting of the year for the Camera Club with members displaying their best efforts in both black and white photographic prints and color slides.

The subject matter for both the photographs and slides this year will be "people and things." Four entries will be accepted from each club member in both the prints and slides classification. They may be left with **B. L. Geldmeier**, 207 Outer Drive; **A. A. Palko**, 104 Princeton Ave.; **J. H. Rowan**, 116 Robin Lane; or **Virginia Coleman**, 103 Darwin Lane. The deadline for submitting entries will be Friday night of this week, May 10.

Judges of the entries will be **Francois Kertesz**, **Mrs. R. W. Stoughton** and **Joe Jernigan**.

All members of the club are urged to attend the salon meeting and to bring friends, as the session is open to the public.

Shift, visited his mother in Tallahassee, Fla., on his long break . . . **Finley Creigh**, he rules B Shift, had his brother from Charleston, W. Va., as a recent visitor.

E. E. Robertson, General Utilities, is vacationing around home.

ALLOY

Blowing the Breeze with Beta Two—**Barbara DeMarcus** is vacationing with her folks in Laurel, Miss. . . **Carl Parks** is visiting friends and sightseeing in Ohio and Michigan . . . Congratulations to **B. O. Miller**, whose son, **David**, was born April 26 . . . Also to **Clarence Needham**, another Proud Poppy, who vacationed last week to be with his new son born April 29 in Oak Ridge Hospital . . . Sympathy is extended to **Natalie Potter**, whose uncle died recently; and also to **J. A. McNeely** on the recent death of his mother-in-law . . . The department is glad to welcome **Johnson Hagood** back after his recent illness.

Alpha Five reports **C. P. Sampson** vacationed in Cincinnati, visiting relatives and taking in a few of the Redlegs' ball games . . . **J. G. Harber** is supervising building of his new home over in Clinton.

Well, that about winds up the little ball of yarn for this time—but let's take time for a kid's cute remark.

Grandson: "Granny, I'll tell you a word if you won't spread it."
Granny: "Well, son, what is it?"
Grandson: "Mayonnaise."

While that is being spread around the place—the CC is ducking out—fast.

LOTS OF PERSONALITY is shown in both of these prize winning pictures in the Y-12 Weekly Photographic Contest for the week ending May 3. At top **Bradford Brewster**, 3, provided **Pop Carl Brewster**, Medical, with first prize material in the picture of the youngster getting "Sheared for the Summer." Aunt **Barbara Thomas**, Process Maintenance, snapped her nephew, **A. L. Thomas**, offering sister, **Denise**, "Want a Bite?" to take second place.

Throng Seen At Spring Dance

Continued from Page 1
makers that have been making a most favorable impression on dancers every Saturday night at the Deane Hill Country Club, where they have been heard and enjoyed by many Y-12ers. It is a seven-piece combo with a songstress to give out with popular numbers at frequent intervals.

Ballroom Air Conditioned

Of course—the Oak Terrace ballroom is air conditioned for comfort but not to cool off the enthusiasm of the throngs of Y-12ers expected to show up for the shindig.

For four hours of fun—9 p.m. to 1 a.m., the cost is just \$1—a real bargain.

See you there?

Carry only as much as you can see over. When you block your vision you might as well be blindfolded. If the load's too big, make two trips.

Corporation, Three Firms Shorten Names

What's in a name? There's a great deal. At the April 16 annual meeting, stockholders voted to shorten the name of the Corporation to Union Carbide Corporation. **Can Easily Spot Name**

Why the name change? For one thing, almost everybody, including the men and women of Union Carbide, refers to the Corporation as "Union Carbide." Then there's recognition. In its new form the name of the Corporation can be spotted and read quickly.

The change-over will take time, however. Offices, plants, and warehouses will need new signs. Many of printed forms, from little things like calling cards to legal papers and contracts will be changed. Customers, suppliers, the general public, and a dozen Government agencies and their subdivisions must be informed.

New Symbol Adopted

However, the effort will be worthwhile. The public will recognize the Corporation more easily. For advertising purposes the words "Union Carbide" have been put in a six-sided symbol—the UCC hexagon—to increase ease of identification. Quick identification is as important in a company-symbol as it is in a stop sign. At the same time Union Carbide shortens its name, three of its Divisions also will change theirs. **Linde Air Products Company** will become **Linde Company**; **Carbide and Carbon Chemicals Company** will become **Union Carbide Chemicals Company**; and **Carbide and Carbon Realty Company** will become **Union Carbide Realty Company**. All of these name changes became effective May 1.

Electrical Engineers Slate Technical Papers May 16

Three technical papers are to be read at a meeting of the Oak Ridge Section of the American Institute of Electrical Engineers at 8 o'clock Thursday night, May 16. The meeting will be in the Blue Room of the Ridge Recreation Hall. All Y-12 members of the AIEE and the public are urged to attend the session.

T. L. Hudson, Oak Ridge National Laboratory, will speak on "The Design Study of an Off-On Contactor Servo Mechanism by Frequency Response Techniques." Another ORNL man, **Clinton S.**

KIDS JUST RUN out of their shoes sometimes, as shown by the vivid snapshot made by **Dave Alford**, Beta Two, to win first place in the Y-12 Weekly Photographic Contest for the week ending April 26, shown at top. The pride of the entire Lankford family is shown in the second prize picture by **Gerald Lankford**, General Machine Shop, of his son, **Jerry**, four months old, enjoying **Pop's** chair. **Jerry** is the grandson of **Lyle Lankford**, also of the Mechanical Operations Division, and the youngster's mother is the former **Patricia Bryant**, an ex-Y-12 employee in the Stores Department.

20th Union Carbide Safety Period Reached

Continued from Page 1
signaling green flasher lights flashing.

The longest previous period of safe operations in the Y-12 Plant Area was established back in 1953 when no lost time accidents were recorded from July 30 through November 19—a total of 3,126,787 hours.

At that time, Y-12ers participating in the lengthy accident-free period were presented individual safety awards valued at \$5.

That was fine—but it wasn't the whole story as the absence of disabling injuries was a far greater award.

Walker, will speak on "The Excitation Requirements of Three-Phase Core-Type, Three-Legged Wye-Connected Transformers." The subject of **J. L. Gabbard, Jr.**, and **J. E. Rowe**, K-25, will be "Digital Computation of Induction Motor Transient Stability." **William D. Plengey** will be moderator at the meeting.

SEVERAL DAUGHTERS OF Y-12ERS are among the piano pupils of **Mrs. Dave B. Samuels**, wife of a former Y-12er who retired April 1, 1956, the group being shown above in a religious pantomime given recently at the Kern Methodist Church after a piano recital. Names of Y-12 parents and their departments are given in parenthesis after the name of the pupil. In front row, from left, are **Sara Ware** (R. S., Project Engineering), **Linda Crawford** (James L., Research Services), **Sally Ferguson** (Ruth, Medical), **Judy Allen**, **Charlotte Garrison** (Howard, General Machine Shop), **Kay Miller** and **Pamela Warren** (William E., Jr., Alpha Five). In the back row are **Lynn Dunn**, **Claudia Allen** (Claude, B. Mechanical Operations), **Regina Lisenbee**, **Susan Hayes**, **Martha Ann Hood**, **Charlotte Fritts**, **Brenda Thomas**, **Elizabeth Davis** and **Dona Cummings**.
