

Dr. Robinson Highly Honored By Ridge Club

Dr. Anne W. Robinson

Above a door opening from the long hall in the Y-12 Dispensary building into a small office is a modest sign in black and white. It merely reads—

"A. W. Robinson, M.D."

To all Y-12ers, however, who have had occasion to visit the dispensary since away back in 1944, "A. W. Robinson, M.D." is Dr. Anne Robinson, staff physician of the Y-12 Medical Department. She is admired, respected and loved by everyone to whom she has administered medical aid in her official capacity and for the advice and counsel she has given many employees that has proven of great assistance to them over the years.

Two Other Women Honored

Dr. Robinson's achievements have not gone unnoticed outside of Y-12, however, and last week she was proclaimed the outstanding woman in the field of health and safety in Oak Ridge—the honor being conferred by the Business and Professional Women's Club of Oak Ridge. Two other Oak Ridge women were cited for similar honors in different fields. They were Mrs. Ethel Glenn, in the insurance business, for her work in public affairs; and Miss Ruth Reager, a teacher, for accomplishments in vocations and education for the betterment of the community.

The B. & P. W. Club has three members in Y-12 who are justly proud of the unanimous selection by the organization of Dr. Robinson for the honor. The Y-12ers are Mrs. W. P. Kelly, Tool Department; Miss Emma Puckett, Stores; and Miss Maola Connor, Manufacturing Offices.

Dr. Robinson Misses Reception

The designated leading women in their fields in Oak Ridge were honor guests at a B. & P. W. reception Sunday afternoon at Ridge Hall, but Dr. Robinson was compelled to accept her honor in absentia as she left Friday on a previously arranged vacation trip with her husband, Lawrence T. Robinson, a machine tool dealer whose duties keeps him on the road most of the time.

Robinson, in fact, is a former Y-12er and it was his coming to work for Tennessee Eastman Corporation in 1943 that led to Dr. Robinson applying for her post in the plant. Robinson, an electrical engineer, was Y-12's first shift supervisor and aided in opening up the first two "alpha" buildings in the plant. He left Y-12 in the

Extended Work-Week Effective October 4

Every Other Saturday Schedule Is Proclaimed

Beginning Saturday, October 4, Y-12ers and Carbide and Carbon Chemical Co. employees at K-25 and Oak Ridge National Laboratory, will begin working every other Saturday. The Company announced last week that the extended work-week will be scheduled, beginning on that date, because of the greatly increased work load as a result of the Atomic Energy Commission's expanded program in Oak Ridge and also because of the shortage of housing facilities in Oak Ridge.

The extended work-week will apply to all Carbide employees whose work is identified in any way with the current expansion program. This included weekly and monthly salaried roll personnel as well as hourly employees.

In general, the Company announced, the extended work-week will place all regular day workers on an average 44-hour week. To do this the Company arranged the schedule for work every other Saturday, with the new schedule being effective October 4.

Rotating shift workers will be scheduled for an average 42-hour work-week. They will work three 40-hour weeks, followed by a 48-hour week.

Employees of the Guard departments who have been scheduled on a 42½-hour work-week, five days at 8½ hours per day, will work an average 44.62-hour work-week.

The extended work-week schedule, will permit much better utilization of available manpower at the three installations operated by Carbide in Oak Ridge.

Four Y-12ers On Program At Liquid Metals Meeting

Four scientists in the Y-12 area will present papers at the annual Liquid Metals Information Meeting next week at the Knowles Atomic Power Laboratory, Schenectady, N. Y. They are R. Potter, R. Spera, S. Esleeck and T. McLay, all of the General Electric Co. group in the ANP Division. The meeting will be held October 7, 8 and 9.

JAPAN GETS INTO ACT

The Kyodo News Agency, of Japan, through the Associated Press, has reported the Japanese Finance Ministry has earmarked \$22,222 for building a cyclotron at Kyoto University.

Salon Meeting Of Carbide Camera Club October 15 Will Feature Contests On Black And White Prints And Color Slide Entries

Members of the Carbide Camera Club in Y-12 and other Company units in Oak Ridge are looking forward to the annual salon meeting of the organization to be held on Wednesday night, October 15, at the Ridge Recreation Hall. The meeting will be a joint session with the Oak Ridge Camera Club and an interesting program is being worked out for the big attendance expected.

The feature of the session will be contests in both black and white photographs and color slides for Carbide Camera Club mem-

George Flack To Head Chest Drive In Plant

George W. Flack

George W. Flack, Superintendent of Industrial Relations in Y-12, has been appointed chairman of the 1952 Oak Ridge Community Chest drive in the plant by Y-12 Plant Superintendent Logan B. Emlet. The campaign will get underway in Y-12 and elsewhere in Oak Ridge on Monday, October 20. The Chest this year is seeking to raise \$55,889 for the operation of its Red Feather agencies during the coming 12 months.

Chairman Flack stated last week that the names of divisional appointees to the Y-12 campaign committee will be announced next week, when further plans for the drive will be announced.

British Scientist To Talk At First ACS Meet Of Fall

The East Tennessee Section of the American Chemical Society will open its fall season with a meeting tomorrow, Thursday, October 2, featured by an address by Dr. F. S. Dainton, head of the chemistry department of The University of Leeds, England. Dr. Dainton will address the business meeting of the section at 8 o'clock in the cafeteria of the new Oak Ridge High School, his topic being "Polymerization And Its Reversal." A dinner at the Spot Restaurant, Oak Ridge, will precede the address.

Dr. Dainton also will speak at the Oak Ridge National Laboratory Biology Division Seminar in Bldg. 9207, Y-12, at 3:30 o'clock Thursday afternoon when his topic will be "Hydrogen Atoms and Water."

Elimination Of Fire Hazards Aim In Y-12 During Prevention Week

Good Housekeeping Stressed As Prime Factor In Year Around Drive Against Flames' Danger

Sharp-eyed Y-12ers will be on the alert throughout the plant next week to pounce on and eliminate any potential fire hazards they might see as their part of contributing toward the objectives of Fire Prevention Week. This occasion will be observed throughout the nation October 5-11 with the aim of sharply reducing the terrible toll of fire in deaths, injuries and property damage in the nation through an intensive campaign of education and action in banishing conditions that lead to destruction through the ravages of flame.

The Y-12 campaign will rest on every individual in the plant area being given the responsibility of seeking out and reporting or eliminating, if possible, whatever fire hazards that might exist in the plant. The program will be coordinated by the Y-12 Policy Committee, the Fire, Safety and Security Coordinators, Divisional and Departmental Safety Committees and the Fire Department.

Good Housekeeping Stressed

Thorough checks and inspections will be made in every department in Y-12 with the objective of carrying out the purposes of the program. All working quarters and the interior and exterior of all buildings will be combed to stress the necessity of good housekeeping that is desired to keep the plant area spic and span and remove any conditions that might lead to fire through accumulation of trash, oily rags and rubbish.

Plant Shift Supervisors will schedule evacuation drills during the week to test the alertness of Y-12ers in response to a danger signal.

Meetings To Review Program

Departmental and Divisional safety meetings this week and next will review the agenda prepared by the Training Department that will serve as a guide for activities during the week. The importance of the Fire Prevention Week observance also will be stressed by slogans and signs all over the plant.

Y-12 Plant Superintendent Logan B. Emlet has issued a proclamation to all employees commending all Y-12ers for contributing to the excellent fire prevention record of the plant. He points out that as a result of the construction program the fire and safety hazards have increased throughout the plant and urges that a continued effort be made to practice fire prevention principles throughout the year.

Instrument, Rocket Societies Will Meet

Two Y-12ers On Slate Of Session Wednesday

Two Y-12ers in the ANP Division in the plant will be on the program of a joint meeting of the Oak Ridge Section of the Instrument Society of America and the East Tennessee Rocket Society at 7:30 o'clock tonight, Wednesday, October 1. The meeting will be held in the East Lounge of the Ridge Recreation Hall. The session is the 71st of the instrument group.

Panel Discussion Planned

The Y-12ers are A. B. Longyear, principal speaker, whose subject will be "Instrumentation Problems Associated with Rocket Propulsion of High Speed Vehicles;" and R. W. Bussard. These two men and Dr. W. P. Berggren, of Oak Ridge National Laboratory, will lead a panel discussion at the meeting.

Longyear is on loan from the Aerojet Engineering Corporation, leaders in the guided missiles field. He will present moving pictures on jet propulsion, one of which will be "High Altitude Research," dealing with V2 rockets and Aero-bee guided missiles, in connection with his talk.

Questions Will Be Answered

The panel discussion will cover instrumentation on guided missiles, a discussion of various types of rockets and guided missiles and the types and applications of instruments required. Panel members then will answer questions from the audience.

Y-12 Personnel Invited To Physics Seminar Meet

Y-12 scientific and technical personnel interested in the subject are invited to attend the weekly meeting of the Oak Ridge Physics Seminar to be held at 3:15 o'clock Friday afternoon, October 3, in the auditorium of the Oak Ridge National Laboratory's new research building. Dr. E. P. Blizard, of ORNL, will speak on "Optimization of Mobile Reactor Shields."

SAFETY SCOREBOARD

Your Plant Has Operated
65 Days
Without A Last Time Accident
Through September 28

tries are limited to three per person and all prints must be monochromes.

Each entry should be titled with data on type of camera used, exposure, lighting, film and developer, paper and developer and toner, if any.

Slides are acceptable in the contest in either two by two inches, 2¼ by 2¼ or 3¼ by four inches. The transparency shall be less than two years of age and only four entries may be made by one person. Data on camera, exposure, kind of film and lighting must be given with each entry.

Members of the Carbide Camera Club in Y-12 and other Company units in Oak Ridge are looking forward to the annual salon meeting of the organization to be held on Wednesday night, October 15, at the Ridge Recreation Hall. The meeting will be a joint session with the Oak Ridge Camera Club and an interesting program is being worked out for the big attendance expected.

The feature of the session will be contests in both black and white photographs and color slides for Carbide Camera Club mem-

Dr. Robinson Highly Honored By Ridge Club

Continued from Page 1
autumn of 1945.

Dr. Robinson first saw Oak Ridge in the early winter of 1943, arriving during the damp, cold December of that year. Most of her first days here were spent in the Oak Ridge Hospital, which at that time had been opened only one month, where she was confined with pneumonia.

"Chaos" At Hospital

"Is was chaos—real chaos," she recalled in speaking of her hospital stay. It was cold outside, and cold inside the hospital. Meal hours were irregular, as was everything else around here, but we survived."

She officially came to work in Y-12 on January 6, 1944, and was the first woman physician ever employed by Eastman Kodak Co., or any of its subsidiaries, of which Tennessee Eastman was one.

"Dr. Anne"—or many times called "Dr. Annie"—thoroughly enjoys industrial medicinal work. Its preventive features and the opportunity to administer to the physical and emotional needs of so many persons of such varied backgrounds has a great appeal—but, believe it not, she misses obstetrical work that she had practiced as a private physician.

Father Was Professor

"Dr. Anne" is a native of Minnesota, having been born in Minneapolis. Her early schooling was taken care of by her parents—both teachers—with tutoring. Her father was retired head of the history department of the University of Minnesota during her youth and the family lived in a small community six miles from the nearest school, therefore the private tutoring.

Dr. Robinson's high school training was in the Grand Rapids, Minn., High School, where she graduated in 1919. She then attended the University of Minnesota, receiving a B.S. degree in pre-medical work in 1923, an M.B. (bachelor of medicine) degree in 1925 and her full M.D. in 1926 following a year of internship at the university hospital. She was married while serving as an intern.

Came From New Jersey

The Robinsons lived in Schenectady, N. Y., and in New Jersey cities for several years while their five children were arriving and Dr. Robinson's practice and civic work consisted mostly of counseling such groups as the P-TA and—as she termed it—"first aid work around the neighborhood." She finally became a resident physician at the Overlook Hospital, Summit, N. J., leaving there to come to Oak Ridge with her husband, who had preceded her here.

The Robinsons have five children and four grandchildren. Two of the sons work for Carbide in Oak Ridge. Theodore W. Robinson is with the Alloy Department of Y-12 and Frank Robinson is employed at K-25. Theodore is the father of the four grandchildren, three boys and a girl, including twins. Miss Margaret Robinson now is a medical student at the University of Minnesota, following in her mother's footsteps, and Elizabeth, the youngest child, also is said

A GROUP OF WIVES OF CARBIDE EMPLOYEES ARE shown above preparing for a bazaar to be given by the Oak Ridge First Methodist Church on November 8 in the Ridge Hall. From left are Mrs. Mary Mann (husband J. E. Mann, ORNL), Mrs. Bettie Jane Schede (R. W., K-25), Mrs. Lucille Keim (Dr. C. P., Y-12), Mrs. Maggie Parrish (E. W., ORNL), Mrs. Kathryn Cantrell (R. T., Y-12), and Mrs. Helen Knight (R. L., Y-12).

Just heard this one—
"The man who woke up to find himself famous never was asleep—"

Zzat so?

Bill Belvin, of Uranium Control and Computing, and his family are vacationing this week with relatives in Chattanooga . . . Nancy Garrison is spending a few days of her week off at home in Anderson, S. C. The rest of her time is being spent in Oak Ridge. . . Get-well wishes are extended to Verner Anderson, who is on the ailing list . . . The Computing section had a fine time on their picnic over at Norris last Saturday afternoon.

The Technical Information Department extends hearty congratulations to Joe Patton and his wife, Kathleen, who are the proud parents of a baby girl—little Patricia Jo weighed in at seven pounds when she arrived at the Oak Ridge Hospital September 22 . . . Helen Brown has returned from a two-week vacation which she spent visiting in three Florida cities, Pensacola, Panama City and Fort Walton . . . Helen Burkhalter and her husband, Max, on week-end leave from the Marine Corps, spent the week end with relatives in Rome, Ga. . . Martha Parks and her parents are visiting her sister-in-law in Westfield, N. J., while on vacation this week . . . Bobbie Jesse had her in-laws, Mr. and Mrs. Carl Jesse, from Kingsport, as recent guests . . . The department welcomes Jerry Keener, a Lenoir City boy, to the roster.

The Guard Department extends the heartiest of congratulations to S. O. Venable who is the proud papa of a baby girl, Livia Diane, born September 21 at the Baptist Hospital in Knoxville weighing eight pounds one and one half ounces.

Capt. Henry Krouse, of the Fire Department, and his family spent last week's vacation visiting his father in Memphis, Tenn.

Marie Coots, of the Laundry, is making a trip to Detroit, Mich., while on vacation this week . . . The department extends get-well wishes to Lela Leslie, who is recuperating from an illness at Etowah.

A. R. Melton, of Receiving and Shipping, is spending his week's vacation at home in Etowah.

Property Sales welcomes Kathryn Reaves and W. E. Powell to the roster.

N. V. Smith, of Materials Chemistry, went to Nashville over the week end to attend the regional meeting of the Model Railroad Association there . . . Bob Crouse was in New York the first of last

by her mother to want to be a doctor. Donald Robinson, the other child, is a student at the University of Cincinnati taking a course in interior design.

"Deeply Honored" By Citation

"Dr. Anne" was disappointed on being unable to attend the reception Sunday, but in her usual quiet and modest manner that has become so well known around Y-12, she merely said:

"I am very deeply honored." She really and truly meant it.

week to speak at a meeting in the Metallography Shop of Columbia University—he got around to seeing a Brooklyn Dodger-Philadelphia baseball game also . . . R. E. Meadows spent last week's vacation at home in Byington . . . A. H. Ballard has moved his family to Powell from Raleigh, N. C.

The Analytical Chemistry Division extends congratulations to Linda Slusher, who was wed to Robert Casey September 20, at the Chapel-On-The-Hill . . . Best wishes go to Connie Varian, who is leaving the division this Friday to try her hand at the full-time job of housekeeping . . . Also good luck and best wishes go to Janet Debman, who terminated to enter training in Atlanta, Ga., for hostess duty with the Delta Airlines . . . Dr. R. Rowan, Jr., a summer participant in the division, terminated Tuesday to take up duties elsewhere.

The Isotope Research and Production Division welcomes Ann Miller to the roster . . . O. B. Rudolph and his wife, Graham, of the Technical Information Department, visited her family in Franklin, Tenn., and his mother in Paducah, Ky., while on a week of vacation. . . Charles E. Pepper, Jr., is vacationing at home in Oak Ridge, this week to entertain his parents, Mr. and Mrs. Charles E. Pepper, Sr., of Wausau, Wis., who are visiting Charles and his family here.

Folks down in the Analytical Laboratory extend congratulations to Elmo Webb, who is the proud papa of a seven pound 10 ounce baby girl, born September 25, at the Oak Ridge Hospital . . . The folks down that way extend sympathy to Betty Esco on the recent death of her grandmother . . . Jo Baker's co-workers hope that her week-end trip to Memphis, for the Tenn.-Miss. State football game was as much fun as she anticipated.

Buildings and Grounds extends sympathy to R. U. Clotfelter, whose father died September 24.

The Cafeteria Department extends get-well wishes to Bertha Jenkins, who is ill in Fort Sanders Hospital, Knoxville.

The Stores Department extends get-well wishes for Eva Russell and for Imogene Marshall, who were on last week's sick list . . . Oops, sorry J. M. Davis, we got your name confused in last week's column—even so we are sure you had a fine vacation over at Kurey Beach, N. C.

A tuneful tickler was reported to this department last week . . . It ain't so funny, but anyhow it is being published away down at the bottom of the colyum on purpose so that if the editor don't get 25 telephone calls howling to high heaven about how lousy the joke is he'll believe the paper isn't being read. So here 'tis—

Y-12 operatic enthusiast—"Don't you just love to hear Carmen?"
Y-12 hillbilly addict—"What, Carmen 'Round The Mountain?"

There is a close relationship between hard work, a light heart and a clear mind.

The following Y-12 employees were patients in the Oak Ridge Hospital last week: George S. Chilton, Phillip W. Taylor, Anne Ruth Williams and Mary E. Lee, ANP; Harry B. Bainbridge, Electromagnetic Research; Edward Hensley and John B. Gray, Field Maintenance; John H. Byrd and Robert F. Adams, Maintenance Shops; Richard A. Bates, Jr., Chemical; James P. Lawless, Jr., Plant Engineering; Sells E. Adams, Electrical Maintenance; Sarah B. Coram, Laundry; and Gladys J. Dodson, Health Physics.

Symphony Orchestra Seeks Musicians Among Y-12ers

Weekly rehearsals have been started by the Oak Ridge Symphony Orchestra in preparation for the first concert of the season to be held Wednesday night, November 5, at the civic auditorium. Any Y-12er with musical experience desiring to join the group is urged to report for the rehearsal sessions held at 7:45 o'clock every Wednesday night in the band room of the high school.

Dr. Waldo Cohn, of the Biology Division, again is director of the orchestra. He has pointed out that several new Y-12ers already have joined the organization, including Paul E. Tausch, General Administrative Department, clarinetist. Barbara Neuss, whose father is employed by General Electric Co., also in Y-12, has joined the group. She plays the flute.

The orchestra normally has 65 members and is particularly in need of string players.

Congratulations to—
John W. Strohecker, Planning and Estimating, became father of a boy September 19.
Howard F. Jordan, Guard, became father of a girl September 19.
Samuel J. Overshine, Analytical Laboratory, became father of a boy September 20.
Carl L. Sutton, Electrical Maintenance, became father of a girl September 21.
Joe R. Patton, Plant Records, became father of a girl September 22.
James E. Patterson, Analytical Laboratory, became father of a girl September 22.
Doyle B. Williams, Guard, became father of a boy September 25.

American Efficiency Gets Big Plug From Guess Who

"American efficiency is the indomitable spirit which neither knows nor will be deterred by any obstacle, which plugs away with businesslike perseverance until every impediment has been removed, that simply must go through with a job once it has been tackled."

This glowing tribute to American industry is not from a convention speech, nor even by an American citizen. The words—spoken 25 years ago—are those of one Josef Vissarionovich Dzugashvili, now plain Joe Stalin.

PADUCAH HOUSING STARTS

Preliminary work has begun on a 500-unit housing project at Paducah, Ky., for employees at Carbide's plant there, according to the Paducah Sun-Democrat. The first units are scheduled for completion in 60 days.

Mr. and Mrs. Bryce Kennedy

KENNEDY—ARGO

The marriage of Miss Louise Argo, of the Planning and Estimating Department of Y-12, and Bryce Kennedy, of General Electric Co., also in the plant area, was solemnized at 6:30 o'clock Saturday afternoon, September 20, at the Chapel-On-The-Hill. The Rev. Frank Porter, pastor of the First Methodist Church in Oak Ridge, officiated at the ceremony.

The bride is the daughter of the late Mr. and Mrs. G. M. Argo, of Hogansville, Ga. Parents of the groom are Mr. and Mrs. William B. Kennedy, of Beverly, Mass.

During the ceremony music was presented by Richard Adams, soloist, accompanied by Mrs. Solem on the organ. Selections included "I Love Thee," "Through the Years" and "The Lord's Prayer."

The bride was given in marriage by her brother, G. M. Argo. For her wedding she wore a suit of navy blue and carried a white orchid on a bible. Mrs. G. M. Argo, sister-in-law of the bride, was matron of honor and wore a grey suit. Bridesmaids were Edna Fine and Zora Shelton, both of Y-12, and they also wore grey suits.

Harold Hawkins was best man and ushers were Jack Fitts and Eugene Canady, all of Oak Ridge.

Out-of-town guests included parents of the groom, Mrs. John Cranston, Jr., of Hogansville, Ga.; and Mrs. Ray Window and daughter, Pat, of Grantville, Ga.

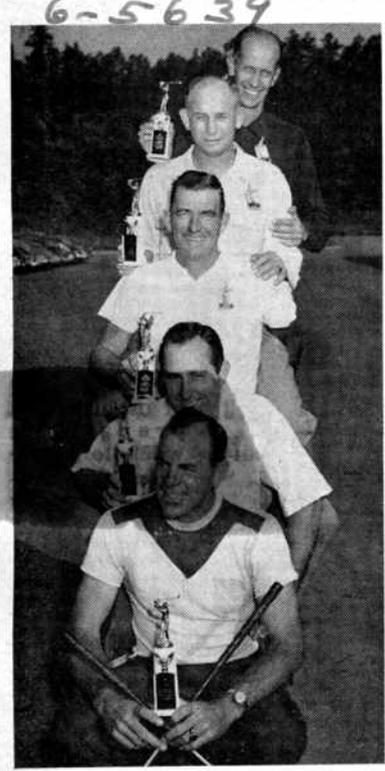

Mrs. Kennedy attended the Georgia State College for Women at Milledgeville and Knoxville Business College. Her husband graduated from Boston University, Boston, Mass.

The couple will live in Oak Ridge. 6-5328

The RIGHT KIND of Security...
Makes a DIFFERENCE

FOLLOW ESTABLISHED SECURITY PROCEDURES

49ers NOSE UCJVs FOR CARBIDE LOOP CROWN

THE RIPPERS GOLF TEAM of the Y-12 Plant League won the seasonal championship last week. From top the team, shown above, is composed of Jack Spears, Archie Hooker, Jake Burchfield, Jay Holzknicht and Arnold Tiller.

Rippers Take Title In Y-12 Golf Loop

In a nip and tuck match last week, the Rippers "tuck" the Fat Boys for a 16-20 victory to win the seasonal championship in the Y-12 Plant Golf League. The Rippers had won the second half of the schedule with 18 points won and 4 lost and had a 32 and 12 mark for the season. By adding two points won in the playoff the overall record of the Rippers is 34-12. The Fat Boys engineered an 18-2 record in the first half of play and an overall mark of 33-9.

In the playoff for the seasonal title the Rippers' individual scores were Holzknicht 2, Birchfield 3, Tiller 4 and Spears 7, totaling 16 points. The Fat Boys ended with Tibbatts 1, Duncan 5, Boyd 7 and Oliphant 7 for their total of 20.

The top 10 averages in the league for the past season were Dorr 37, Meece 38, Bauman 38, Cater 38, Burchfield 39, Hines 39, Harrell 40, Reynolds 40, Caldwell 41 and Tiller 41.

Keglers Of Y-12 Conquer Clinton Team In City Loop

The Y-12 men's varsity bowling team trimmed the previously undefeated Clinton Bedding Co. pin-men Monday night, September 22, to gain a tie for first place in the Oak Ridge City League with the Management Services keggers, each with a 10 and two mark. The Y-12ers won two games and total pins from the Clintoneers; the line scores being 882, 887, 838—2605 for Y-12 and 929, 826, 785—2560 for the losers.

Y-12 individual scores were well balanced. In order they were Jack Spears 196, 184, 158—538; Len Hart 165, 192, 174—531; Roy Roberts 177, 192, 157—526; Joe Prysion 167, 179, 174—520; and Ray Galford 177, 140, 173—490.

Child Specialist, to the mother of a small boy: "You'll have to handle this child carefully, remembering always that you're dealing with a sensitive, high-strung, rascally little stinker."

Woodpeckers Are Battling For Loop Title

Y-12 Class B Softies Whip Baptists, Elks In Championship Tilts

The Y-12 Woodpeckers will be seeking their second straight win over the Elks for the Oak Ridge Recreation League title early this week and thereby bring another city championship to the plant. The Y-12 Class B team walloped the First Baptist team by 6 to 2 to finally clinch the first half of the season crown and then took a 11 to 2 decision from the Elks in the first of a three-game play-off. The Elks had won the second half of the season.

Three Crowns Already Won

Y-12 already has won both the Class A men's and women's titles in Oak Ridge and the Class B tournament championship was taken by the Bldg. 9212 team of the plant Carbide League. Teams from K-25 were the victims in each division.

Bill Stanton and Ed Sise divided the pitching assignment for the Woodpeckers against the Baptists, limiting the churchmen to four hits. The Baptists got their only two runs off Stanton in the third and Sise took over to pitch hitless ball the rest of the way. The Woodpeckers got only five bingles, Agee getting a pair and Barker, Sikes and Braden one each. However, five opposition errors and five passes helped the winners.

Two Wallop Homers

Stanton went all the way against the Elks to allow only a pair of bingles while the Woodpeckers were whacking Lay for seven hits, including homers by Stanton and Braden and a double by Moore. The Elks were forced to play with only eight men on the field.

Line score of the two games follow:

Team	R	H	E
Woodpeckers	201	101	1-6 5 2
First Baptists	002	000	0-2 4 5
Stanton, Sise and Barker. Stout and Helfenberger.			
Elks	001	100	0-2 2 2
Woodpeckers	001	064	x-11 7 0
Lay and Foust. Stanton and Barker.			

Vectors Go To Tie For D Loop Top Spot

The Vectors vaulted to a tie for leadership in the D League last week by blanking the Split Kids for four points while the Activators, co-holders of first place, could only grab three points from the Toppers. In other bowling activities in the circuit the Grocers had a bargain night in their clash with the Peons, taking four points; while the Old Men and Isotopes, battling manfully to escape a tie for the cellar, ended up right where they started as they divided their points.

Ray Duckworth, of the Grocers, had most of the scoring honors of the night with a 230 handicap game, 535 scratch series and 655 handicap series. Hobey Thomas, of the Split Kids, got into the act with a 206 scratch game. The Grocers topped the field in team scoring with 861, 1017, 2462 and 3004 across the board, all being high for the season.

The big five averages in the loop are Hill, Vectors, 180; Pletz, Peons, 179; Addison, Grocers, 166; Stewart, Peons, 163; and Thomas, Split Kids, 163.

League standing follows:

Team	W	L
Activators	10	2
Vectors	10	2
Grocers	8	4
Toppers	6	6
Peons	4	8
Split Kids	4	8
Old Men	3	9
Isotopes	3	9

Y-12 SPORTS NEWS

SEVERAL MAINSTAYS OF THE OAK RIDGE HIGH School Wildcats football squad are sons of Y-12ers, shown above. The players and names of their parents, shown in parenthesis, are, front row from left J. T. Clark (B. A.), Jim Shelton (Kirby Duke, stepfather, and Mrs. Eleanor Duke, mother), Bobby Hopkins (C. B.), Gordon Estes (C. L.), Wayne Frazier (C. W.), Frank Birchfield (J. Y.), Ray Tiller (Arnold), and Gene Cowan (G. A.). In the back row are Bill Lanter, team captain, (A. E.), Ralph Allspaugh (U. L.), Lee Stansberry (R. L.), Bob Hazlett (R. L.), Bill Gent (E. E. Ramsey, grandfather), Joe Herndon (J. M.), Kendall Brady (L. J.), and Bobby Young (J. W.).

Don't Shoot Pal - He's Just A Hunter, Too; Safe Handling Of Guns Is Urged

The "I didn't know it was loaded" and the "I thought he was a squirrel" season—meaning the hunting season—for various and sundry types of game, will be flourishing in East Tennessee for the next several months. Already several serious accidents have occurred in the field caused by careless use of firearms—and many more will occur. However, there is no reason for Y-12 Nimrods to fall victim to any such mishap if the following rules are adhered to closely by all hunters.

B Loop Competition In Three-Way Tie

By taking four point victories from the Swingsters and All Stars, respectively, the Rebels and Tigers advanced to a tie for first place in the B League with the Bumpers, who bagged a three point win over the Cubs. In other alley encounters the Wasps and Has Beens each took four points from Bldg. 9211 and Rippers and the Wolves nipped the Bums for three.

Paddy Peckman, of the Cubs, had the top game scores, a 221 scratch and 252 handicap effort. He also had the best handicap series of the night with 659. Ernie Cobble, of the Bumpers, turned in a 568 scratch series for tops. In team scoring the Has Beens turned in an 895 scratch game, boosted to 1038 with handicap, and a 2530 scratch series. The Wasps had a 3001 handicap series.

League standing follows:

Team	W	L
Bumpers	11	5
Rebels	11	5
Tigers	11	5
Wolves	10	6
Wasps	9	7
Has Beens	9	7
Bums	8	8
Rippers	7	9
Bldg. 9211	6	10
All Stars	6	10
Swingsters	4	12
Cubs	4	12

Volleyball League Will Open October 6

With five teams definitely entered and one vacancy existing, a Y-12 Volleyball League will begin play next Monday night, October 6, at the Elm Grove School gymnasium. A meeting of team managers has been called for 3 o'clock Friday afternoon, October 3, at the Recreation Office, North Portal, to adopt a constitution and by-laws and it is hoped at this time that the needed sixth team will join the circuit.

Four teams were represented at the organizational meeting last week, they being the Short Circuits, Vitro Corporation, Engineers and Duds. A team from Bldg. 9212 also signified its intention of competing.

Rusty Five Romps To Lead In C Loop

The Rusty Five romped to the top of the standings in the C League of plant keggers last week by whitewashing the Guards for four points while the Hooks, previously tied for the lead, could only split even with the Eutectics. The UCJV keggers bagged three from the Moles and the Hornets stung the Angstroms by the same margin.

Bowles, of the Rusty Five, and Crabtree, of the Hornets, each had a 188 scratch game for tops and Bowles went on to score a 506 scratch series. DeMarcus, of the UCJVs, was tops with a 227 handicap game and 655 handicap series. The Rusty Five had the best scratch team scores, a 787 game and 2304 series. The Eutectics posted a 974 handicap game and 2971 handicap series.

League standing follows:

Team	W	L
Rusty Five	12	0
Hooks	10	2
UCJV	7	5
Hornets	6	6
Eutectics	5	7
Guards	4	8
Moles	4	8
Angstroms	2	10

Thriller Tilt Goes 10 Rounds To 4-3 Decision

Most Successful Year Of Softball In Y-12 Fittingly Climaxed

Whew! Another series like that and Y-12 softball fans will be drooling all over the place.

In a history-repeating performance recalling their fighting finish in the first half of the season, the 49ers of the Carbide League rallied after an initial defeat to take two straight games from the Uranium Control Junior Varsity in a play-off series for the season's championship in that loop. The champions clinched the crown last Thursday night with a thrilling 4 to 3 victory in a 10-inning engagement. Two nights previously they had trimmed the Juniors by 9 to 3 after losing the opening game of the series by 16 to 3. The 49ers earlier had won the plant tournament.

The UCJVs had won the second half of the season in the Carbide League and had barely been nosed out by the 49ers for the first half title as the Prospectors had to win three straight games at the end of the schedule to take the honors.

The series last week rang down the curtain on plant softball activities for the season—a season that probably saw the sport reach its top level in Y-12. With two leagues operating, a large number of Y-12ers were given an opportunity for recreation and competition. The standard of play and sportsmanship was high throughout the long summer weeks and the spirit of friendly rivalry was unsurpassed. Close races for the top spot in each league naturally increased the heat of competition but despite this warmth, untoward incidents were totally lacking and protests few.

Sise Hurled Vital Victories

Veteran hurler Ed Sise was on the mound for the 49ers in all three of the title games and after being battered freely in the opening contest he tightened up and was stingy with safeties in the last two games, particularly with ducks on the pond. In the leveling contest he allowed five hits, the same number obtained by his mates, and in the overtime championship game he allowed but six.

In the title tilt the 49ers took a three-run lead in the third round on singles by Ray Ellis and George Wiley and Bob Ridings' homer. The Juniors tied it up in the sixth on bunched bingles, Al Church driving home a pair with a timely thump. The tension increased every minute through three scoreless rounds until the top of the tenth. Then a 49er got on base through an error and finally got around when Clyde "Lefty" Carter laced out a sizzling single to wrap up the season.

The rivalry between the two teams that grew throughout the season resulted in a record crowd of partisan fans attending the championship scrap to cheer their favorites to great efforts. The big crowd was well rewarded with one of the finest exhibitions of the year—as the score and the outcome reveal.

Ridings was the hitting star for the winners with a double in addition to his homer. Ellis and Wiley also got a pair of safeties each. For the UCJVs John Thompson got a double and single in three tries, Church got a single and double and Joe Smyrl a double.

Line scores of the last two games follow:

Team	R	H	E
49ers	140	301	0-9 5 6
UCJV	002	100	0-3 5 9
Sise and Jones. Hopper and Hopkins.			
49ers	003	000	000 1-4 11 2
USJV	000	003	000 0-3 6 2
Sise and Jones. Hopper and Hopkins.

Promotions Go To Four More Chemical Men

This 10th of a series of sketches and pictures of Y-12ers earning promotions since July 1, 1951, is devoted to four Chemical Division employees in the Administrative Normal Department.

J. E. Cooley R. C. Pruden

John E. Cooley—A Y-12 employee since August 14, 1944, Cooley was promoted from shop inspector to assistant foreman on February 1, 1952. He was married on January 15, 1937, and he and his wife, Mrs. Roberta Cooley, have one son, Ralph, 12. They live at 190 Louisiana Ave., Oak Ridge.

Ross C. Pruden—Coming to work in Y-12 on November 13, 1950, Pruden was promoted from maintenance mechanic to assistant foreman on July 1, 1951. Married on April 13, 1943, he and his wife, Mrs. Laura Belle Pruden have no children. They live at 527 West Vanderbilt Drive, Oak Ridge.

W. A. Sherrod H. H. Specht

Walter Allen Sherrod—Employed in Y-12 on January 6, 1948, Sherrod received his promotion from machinist to assistant foreman on April 1, 1952. He was married in 1940 and he and his wife, Mrs. Marie Sherrod, have three children, Sandra Kay, Rebecca Sue and Walter Sherrod, Jr. They live on Charlotte Ave., Knoxville.

Henry H. Specht—A Y-12er since February 5, 1951, Specht first was promoted from machinist to assistant foreman on July 1, 1951, and then to foreman on May 1, 1952. Married in October, 1949, he and Mrs. Margaret Ann Specht have one daughter, Peggy Sue. They live at 226 Robertsville Road, Oak Ridge.

"Why should our marriage be so unhappy? Is it a case of December married to May?"
 "No; it's Labor Day married to Day of Rest."

T. R. SMITH, OF THE Guard Department, is mighty proud of his daughter, Evelyn, and Evelyn, in turn, is proud of the cucumber she grew in a milk bottle, shown in this picture. All hands, also, are proud of Ronnie, Smith's grandson, being held by Evelyn.

MEDDLING MOUSE MOSEYS TO DEATH

A couple of weeks ago there was published a story about the curious cat that was very fatally electrocuted while investigating a certain power line in Y-12. Now comes a report of an investigating mouse with a yen for something inside a logarithmic counter meter used in important experiments by the Electromagnetic Research Division. Folks using the meter a few days ago found it fluctuating in a funny manner when it should have registered a straight line—and Elmer Olson disassembled the instrument to see what was the matter. He found the very dead rodent who, like the feline victim of the short circuit, had met his fate through electrocution. Now that the cat and mouse extermination stories have come out—anybody know of more nature studies or zoological tragedies around these parts?

Good Safety Records Boon To Humanity

Establishing and keeping a good safety record now is recognized by industry and communities alike as paramount in attaining the maximum benefits of work and life. The Y-12 Bulletin reprints the following article by J. L. Fish, a leading safety authority of the country.

Most Injuries Preventable.
 "Most industries are learning that injuries are preventable. This same knowledge is gradually spreading to cities, villages and rural communities. Whenever any of these groups succeeds in reducing accidents or injuries below any previous accomplishment, we hear that they have established a good 'No Injury Record,' or that they have a 'Low Frequency Rate.'"

"Both of these expressions are used to convey the idea that the group concerned has succeeded in reducing its injuries to a point where they compare favorably with other groups engaged in similar activities. When we read of these accomplishments in newspapers or other publications, do we try to realize their significance, or do we pass over them as something beyond our interest or understanding?"

Living Costs Are Reduced
 "Whenever a good record is established, it means that fewer persons have been killed or maimed; fewer hospital beds have been occupied; fewer automobiles have gone to the scrap heap; less money has been spent for artificial limbs, doctor's bills, hospital bills and other things that are necessary to bring about recovery and rehabilitation."

"But, above all, it means that there has been less misery; fewer families have been bereaved, fewer employees have been forced to remain away from their jobs with consequent loss of income and possible suffering on the account; fewer individuals have been made incapable of doing their regular work, and so have had to fit themselves for a new occupation. In the community, it means that playgrounds, beaches, and other recreation spots are safer places for fun and relaxation; that streets are safer for motorists and pedestrians."

"Any plant with a good 'No-Injury' record is a better place to work; and any safety-minded community is a better place to live."

'Dynel' Now Is Blended Into Washable Cloth

Carbide's new synthetic fibre, Dynel, has been blended with long staple cotton and nylon into a cloth named "Dynelon." The cloth is used for blouses and sports outfits. It is washable by hand in lukewarm soapsuds or by washing machine for short periods. It should be pressed with a cool iron. Garments of "Dynelon" that are lined should not be washed unless the label specifies that the entire garment is washable.

Be Prepared--When Voting Time Arrives

Folks in other countries just can't understand why only about half of all Americans eligible to vote actually cast their ballots. They figure we don't care much

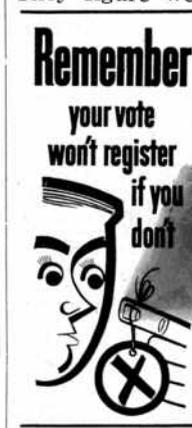

about our Freedom to Vote—the envy of millions throughout the world. However, they are wrong. We care—but a lot of us just don't prepare. We want to vote when the campaign rolls around to an exciting finish, and then find out we can't because we forgot to prepare by registering.

All Y-12ers should make sure this doesn't happen to themselves or to any of their friends and neighbors. Find out now if you or the neighbors are eligible to vote in that all important November 4 election—that is if you are qualified to vote through proper registration.

Remember this—any voter who has moved from one precinct or district to another since last voting must re-register. Any woman voter who has changed her name by marriage since last voting must re-register. Any voter who has not voted in a state wide election since 1946 must re-register.

Such persons must re-register before October 15 to qualify for the November 4 election.

Don't forget it. If in doubt—check at once with the register of your county at the court house.

Remember
 your vote won't register if you don't

Attendance Record

2140	7.5	15	9	9

Group absentee percentage was 2.4 per cent, .5 per cent higher than the preceding week.

The plant average for the week ending September 21 was 2.9 per cent, .1 per cent higher than the preceding week.

URANIUM OUTPUT BEGINS

Uranium production for the United States and Britain has begun at the West Rand Consolidated Mines near Krugersdorp, South Africa, according to the official organ of the South Africa House in London. The South Africa minister of mines is quoted as saying that area is destined to become the world's biggest producer of uranium.

Y-12er On All Star Selection For Knox Baseball Tourney

Although Y-12 was not represented on the baseball diamond this season, several horsehide stars of the 1951 Cardinal team played prominent parts in the success of the Carbide Club—Oak Ridge's only senior men's outfit in the city this year.

One of them, Jack Addison, made the all star team of the recent sandlot baseball tournament held in Knoxville, the only Carbider so honored. He was listed as a utility outfielder. Jack is a swift and sure fielder and a capable willow wielder. He also played on the Y-12 Red Birds softball team that won the Oak Ridge championship and made a good showing in the state tournament in Chattanooga.

Among the other Y-12ers who were factors in the successful season of the Carbide baseball team were pitchers Ed Guy, Lefty Carter and Paddy Peckman, and infielder George Wylie. The Carbide team played a lengthy schedule and won a big majority of them.

In addition to Addison's all-around fine play in the tournament; Cater, Wylie and Peckman all were valuable in pitching, fielding and hitting.

Vitro Peglers Take Lead In E League

The E League of plant keglers picked up the two teams needed to round out its quota of eight last week, and one of them, the 66s, made an auspicious debut by taking three points from the No Pins and romping off with the majority of scoring honors. However, the Vitro Peglers took another whitewash win over the Cut Ups, the other new team, the victors holding the loop lead. The Pin Wobblers pounded the Hobslurps for four points and the Ezy Aces took the Stinkers for three.

Two 66s players, Butters with a 203 scratch game and Tiller with a 507 scratch series, topped the individual keglers for the night. The 66s posted a 786 scratch game, 2200 scratch series and 2764 handicap series for tops. The Pin Wobblers knocked off a 944 handicap game for tops.

The leading five averages in the league after two nights of play are Brothers, Pin Wobblers, 166; Harley, Cut Ups, 166; Keller, Hobslurps, 164; Butters, 66s, 162; and Smith, Pin Wobblers, 161.

League standing follows:

Team	W	L
Vitro Peglers	8	0
Pin Wobblers	7	1
66s	3	1
No Pins	5	3
Hobslurps	4	4
Ezy Aces	4	4
Stinkers	1	7
Cut Ups	0	4

Rides Wanted And Offered

Ride Wanted—From Sutherland Ave., Knoxville to Y-12 or Elza Gate, straight day. Kathryn Reaves, plant telephone 4601.

Riders Wanted—From Lake City, two shifts, 7 a. m. to 3 p. m. and 3 p. m. to 11 p. m. J. C. Wilson, Jr., plant telephone 7116, home telephone 2091, Lake City.

Ride Wanted, Or Will Participate In Car Pool—From Luttrell St., Knoxville, straight day. George Heins, plant telephone 7508, home telephone 3-9001, Knoxville.

Ride Wanted—From Riverside Drive, Knoxville, straight day. H. J. Nelson, plant telephone 7102, home telephone 2-5549, Knoxville.

Controllers Cruise At Top Of W Loop

Unless placed under control rather quickly, the Controllers threaten to make a runaway race of the W League of plant women bowlers. They took their third straight whitewash victory last week, the Curvettes being the latest victims. Other victors in league contests also blanked their foes, the Kemps, Cracker Jax and Gutter Cats winning over the Mix Ups, Alley Cats and Strickettes.

The Controllers as a team also led the loop in scoring last week with a 753, 973, 2069 and 2729 across the board. Two of the team members also took individual scoring honors with Juanita Kirwan having the best game tallies with a 178 scratch and 214 handicap and Betty Whitehorn posting a 468 scratch series, boosted to 582 with handicap.

The top five averages in the league are Miss Whitehorn 149; Mrs. Kirwan 148, Ann Weissing, Gutter Cats, 137; Doris Moore, Controllers, 136; and Mavis Koons, Kemps, 135.

League standing follows:

Team	W	L
Controllers	9	0
Kemps	6	3
Cracker Jax	6	3
Gutter Cats	6	3
Mix Ups	4	5
Strickettes	3	6
Curvettes	2	7
Alley Cats	0	9

Keglerettes Of Y-12 Lose Three Points To Rickers

The Y-12 keglerettes in the Oak Ridge City League took a "tromping" last week at the hands of the Ricker Heating Co. lassies, losing three games. The line scores were 666, 686, 684—2036 for Y-12 to 711, 714, 782—2207 for the winners. The loss dropped the Y-12ers from a tie for third to a tie for sixth place in the circuit.

Juanita Kirwan rolled 150, 151, 177—478 to top the Y-12ers and was followed by Betty Whitehorn 124, 138, 146—408; Verna Peckman 147, 128, 123—398; Mavis Koons 102, 157, 119—378; and Ruby O'Kain 143, 112, 119—374.

OHIO CHURCHES ACTIVE

Recent news stories report the Ohio Council of Churches is mapping plans to provide adequate spiritual activities for the 30,000 workers to be employed in the new Pike County atomic energy plant.

Remember—Only you can PREVENT FOREST FIRES!
